FOREWORD

This report presents a complete listing of all capital improvements authorized by the General Assembly during the years 1961-1973, which compilation will serve as a useful reference to State officials, legislators and others in the consideration of future capital improvement projects of the State.

If information is desired on capital improvements projects authorized prior to 1961, reference should be made to State Planning Department Publication No. 158 entitled, "Capital Improvements Authorized By General Assembly 1955 Through 1969" dated October 1969.

This report spans the thirteen year period, 1961-1973, and indicates the extent of the programs to overcome critical deficiencies and provide for the expanding growth of the State. It discloses that during this period the expenditure of more than \$2,067,878,258 has been authorized by the General Assembly for capital improvements, exclusive of transportation facilities financed by the Maryland Transportation Trust Fund.

The report sets forth a summary of the authorized expenditures by major functions for both State-owned and non-State-owned capital assets; a tabulation of legislative fund authorizations; and a detailed compilation by agency and institution, of all projects that have been authorized during the thirteen year period. The Department of State Planning, of course, is primarily concerned with State-owned capital assets. Expenditures authorized for non-State-owned capital assets are included primarily to present a complete picture. The chart, on Page 9, shows authorized capital improvement expenditures by basic function for both State-owned and non-State-owned capital assets.

¹ In addition to these loans, (Area Vocational School Construction Loans of 1965, 1967 and 1969), the State's credit has been extended to the local subdivisions in connection with the General Public School Construction Loans of 1962, 1963, 1965, 1967 and 1970, which total \$220,000,000. Debt service for these loans is payable by the local subdivisions. It should be realized, however, that this practice of so extending the State's credit affects its credit position.
